So far, we have shown you two ways to approach winning the lottery -

1. Improving your odds by Picking a Group of Numbers, eg, 10 or 12 numbers, and systematically arranging those numbers to guarantee a winning result, i.e., 4, 5 or 6 winning numbers;
2. Arranging your games in the optimum way, eg, 3odd-3even, 3high-3low, no more than 2 consecutive numbers, etc - the Lottery Lessons concept that analyses probability to give you the game-types that win 8 weeks out of 10.

In this Free Lotto Report, we look at **the third option - arranging ALL the numbers in such a way that a result is guaranteed.**

To guarantee all six winning numbers in a 49-ball lottery, you need to play **13,983,816 games**. To guarantee 3 or more winning numbers requires just **198 games**.

To guarantee all six winning numbers in a 45-ball lottery, you need to play 8,145,060 games. To guarantee 3 or more winning numbers requires just 160 games.

To guarantee all six winning numbers in a 40-ball lottery, you need to play 3,838,380 games. To guarantee 3 or more winning numbers requires just 120 games.

What happens after that?

If we guarantee 3 winning numbers in 120 games for a 40-ball lottery, then -

- There are 37 numbers left, of which 3 are winners. **Your chance of a 4th winning number is therefore 3-in-37, or almost 1-in-12;**
- Once you have that 4th number, **the chances of 5 winning numbers are 2-in-36, or 1-in-18.**
- **The odds of that all-important 6th ball then become 1-in-35.**

Does it work? We will give you a Free System that you can check against **FUTURE** results.

The West Virginia, USA, Lottery has 25 balls. The 25 games over the page would guarantee 3 to 6 winning numbers every single week.

You can print the 25 lines below and check FUTURE results. At least one line (often more) will produce at least three winning numbers. Or you can choose six random numbers between 1 & 25 yourself and test for them.

While this is designed for a 25-ball lottery, it works for any lottery -IF- you trap all six winning lotto numbers in your chosen 25 numbers.

PLEASE FEEL FREE TO USE IT, WITH OUR COMPLIMENTS.
