

**Are You Serious about ..**

# **Winning the Lottery**

**Part II**

**Free Lotto Systems gathered  
from the best sites on the Internet**

**Our FREE Gift to You**  
**Please feel free to pass this on to Friends**

[www.lottomasta.com](http://www.lottomasta.com)

[www.lottomasta.australia.ms](http://www.lottomasta.australia.ms)

[www.win-power-ball-lottery.com](http://www.win-power-ball-lottery.com)

In part 1 we bought you 8 and 9 number systems.

In part 2 you get free 10-number, 12-number and Pick-5 systems - Please feel free to use them and may they bring you Good Luck !

## **Top 10 Number System**

Check out Robert Serotic's Lotto system for FIVE PAIRS. Serotic is recognised by many as the world's leading authority on Lottery Systems.

**This system is Free on the website - [www.lottomasta.com](http://www.lottomasta.com)**  
(click on "Only Way to Win at Lotto").

### **Serotic System for 10 Numbers using 5 Pairs:**

Pair One: 1 & 2    Pair Two: 3 & 4    Pair Three: 5 & 6  
Pair Four: 7 & 8    Pair Five: 9 & 10

#### **Guarantee:**

1. **First Prize is guaranteed IF ANY THREE PAIRS are correct.**
2. With TWO PAIRS correct, a winning number in any other pair guarantees FIVE winning numbers together.
3. With just TWO PAIRS correct, FOUR winning numbers will be together.
4. With ONE PAIR correct, a winning number in any other two pairs guarantees FOUR winning numbers together.

**Games: Only 10 games required - A full System 10 requires 210 games!**

Your 10 Numbers: \_\_\_\_\_

Game 1	1=	2=	3=	4=	5=	6=
Game 2	1=	2=	3=	4=	7=	8=
Game 3	1=	2=	3=	4=	9=	10=
Game 4	1=	2=	5=	6=	7=	8=
Game 5	1=	2=	5=	6=	9=	10=
Game 6	1=	2=	7=	8=	9=	10=
Game 7	3=	4=	5=	6=	7=	8=
Game 8	3=	4=	5=	6=	9=	10=
Game 9	3=	4=	7=	8=	9=	10=
Game 10	5=	6=	7=	8=	9=	10=

Simply substitute your chosen 10 numbers for the numbers 1 to 10 above.

*This is just one of over 200 Lotto Systems in Robert Serotic's book - plus his views on how to play Lotteries, tips, tactics and strategies.*

*Again we stress you need to play all 210 games in a full system 10 to guarantee First Prize - but if you can only afford 10 games, this is a great way to play.*

\* **LottoMasta's Hot Tip** \* Playing FIVE of the preceding entries allows you to play up to **50** lotto numbers. For a 49-ball lottery, you play one number twice. For a 45-ball lottery, you play five numbers twice, and so. If you are playing a 40-ball lottery, you can get away with just 4 of the above entries.

You can guarantee **ALL** the winning numbers somewhere in your overall entry in 50 games - ideal for a small family or workplace entry.

Robert Serotic's book, "**The Only Way To Win At Lotto**" is considered the most comprehensive guide to lotto on the market. It includes:

- **Playing strategies,**
- **Number selection methods**
- **222 original lottery systems and**
- **282 Pages of Lottery Magic!**

If you like the idea of saving 200 of the 210 games - and still getting a reasonable guarantee - check out : <http://www.lottomasta.australia.ms>  
(click on: Get lottery results in 649 lotto games with systems by Robert Serotic)  
for a **12-number system** - Free on Site - that **saves 904 of the 924 games.**

## **Be Scared. Very Scared!**

If you don't play a system - check out: [www.lottery-and-lotto.com](http://www.lottery-and-lotto.com)  
There's a Free Report (*Revealed - the amazing truth about lotto systems*) that absolutely proves (game-by-game) that:

- ◆ You can play 12 numbers
- ◆ Combine them **662** different ways
- ◆ **Have all 6 Winning Numbers** and
- ◆ **Not Win a Cent!** Sounds unbelievable, but its true.

**You cannot afford not to have a system !**

On the other hand, to guarantee some kind of win if you have all 6 winning numbers, you need play **just 6** of the 924 games in a full system 12.

The free system below is the cheapest way to play 12 numbers and **guarantee 4 or more winning numbers together IF you have all six winning numbers** (circle any 6 numbers - 4 or more will be together).

1=	2=	3=	4=	5=	6=	7=	8=	9=	10=	11=	12=
----	----	----	----	----	----	----	----	----	-----	-----	-----

1=	2=	5=	7=	11=	12=
1=	3=	6=	7=	10=	11=
1=	4=	7=	8=	9=	11=
2=	3=	5=	6=	10=	12=
2=	4=	5=	8=	9=	12=
3=	4=	6=	8=	9=	10=

---

*Alternatively, you can play 12 numbers in 42 games and absolutely guarantee:*

♦ *If you have all 6 winning numbers, then 5 or all 6 will be together*

*-IF- you know the secrets of combining numbers effectively*  
*(this system is on page 77 of "The Only Way To Win At Lotto.")*

---

\* **LottoMasta's Hot Tip** \* Playing FOUR of the preceding entries allows you to play up to **48** lotto numbers. For a 49-ball lottery, you leave out one number. For a 45-ball lottery, you play three numbers twice, and so. For a lottery with 48 balls or less, you can cover ALL the winning numbers in your overall entry in just **24 games!**

## Looking for a Free Powerball / Pick-5 System?

There's a free one at: [www.lottomasta.australia.ms](http://www.lottomasta.australia.ms). But we'll save you the trouble of fetching it. Here the extract from the "Powerball Strategies" book, including a great explanation of how lottery and Powerball systems work -

### LottoMasta Modified Powerball Systems

#### The 4-from-4 Section

*What is a 4-from-4 System?*

"4-from-4" refers to the Guarantee. It means if you have 4 Winning Numbers amongst your chosen numbers, they will all appear in one line.

*Can I get more than 4 numbers?*

Yes. Since every game is 5 numbers, if you have 5 Winning Numbers it is possible for them to appear in one line. Since you are guaranteed 4 together, the chances of 5 together are quite good, especially with the 7 or 9 number Systems.

*Why should I play a 4-from-4 System?*

It is a mathematically precise arrangement of numbers that has a guaranteed result. For example, you can play 10 numbers, arranged in such a way that you are guaranteed any 4 numbers together in only 54 games (A full System 10 is 252 Games). If you played 10 numbers in a haphazard way, there is no guarantee that winning numbers will come together.

*What are the Advantages of a 4-from-4 System?*

By playing more numbers - with a Guaranteed Result - you stand a much better chance of picking up minor Divisions. **A 4-from-4 System also guarantees Multiples of 3 numbers together.**

*Can I get Multiple Divisions?*

**YOU ALWAYS WILL** - if you have 4 Winning Numbers, you must have Multiples of 3 Winning Numbers. If you also have the Powerball, you would have Multiple Division 6's, Multiple Division 4's, plus at least one Division 3. This is a **MINIMUM** return - it could be Division 1 or 2.

*What do I save on a Full System by playing a 4-from-4 System?*

From 52% (for 7 numbers) to 78% (for 10 Numbers). A LottoPower System 1044 costs \$28-80 for 54 Games and guarantees any 4 number combination. An official System 10 costs \$132-00 for 252 Games and guarantees any 5 number combination. (Prices for Australian Powerball).

**For \$132 (One full System 10), you can play 10 numbers with 1 Powerball (with all 5 number combinations guaranteed).**

**For \$144 (Cost of 5 LottoPower System 1044's), you can play 10 numbers with FIVE Powerballs (with all 4 number combinations guaranteed).**

***It sounds too good to be true!***

I agree. The logic behind Lotto combinations - well, it isn't logical! If you look at the official Lotto Systems in "All About Powerball" (Free from your Lottery agent) a full System 8 costs \$29-20. A System 10 costs \$132. A System 12 costs \$410-00. By adding 50% more numbers (From 8 to 12) the cost increases 1400% !

***So how do I prove it works?***

Rather than try to understand how it works, check out the Results from using it. This will give you a "feel" for the System and help you decide whether you prefer a 4-from-4 System, a 3-from-3 System, etc. Photocopy any LottoPower System several times. Choose 4 numbers and mark them off. Now note the Results. Repeat this as many times as you like. Now try it with 5 numbers. If you are happy with the Results, play the System. If not try a different type of System, eg, 3-from-3. An example is shown below -

**Example - System 944 - If Winning No's included : 2nd, 3rd, 6th, & 9th No's**

1)	2)	3)	4)	5)
6)	7)	8)	9)	

<u>Game</u>	<u>1st No</u>	<u>2nd No</u>	<u>3rd No</u>	<u>4th No</u>	<u>5th No</u>
1	1	2	3	4	5
2	1	2	3	6	7
3	1	2	3	8	9
4	1	2	4	6	8
5	1	2	4	7	9
6	1	2	5	6	9
7	1	2	5	7	8
8	1	3	4	6	9
9	1	3	4	7	8
10	1	3	5	6	8
11	1	3	5	7	9
12	1	4	5	6	7
13	1	4	5	8	9
14	1	6	7	8	9
15	2	3	4	6	9
16	2	3	4	7	8
17	2	3	5	6	8
18	2	3	5	7	9
19	2	4	5	6	7
20	2	4	5	8	9
21	2	6	7	8	9
22	3	4	5	6	7
23	3	4	5	6	8
24	3	4	5	6	9
25	3	4	5	7	8
26	3	4	5	7	9
27	3	4	5	8	9
28	3	6	7	8	9
29	4	6	7	8	9
30	5	6	7	8	9

**RESULT: Games 2, 3, 6, 8, 15, 17, 18, 21, 24, and 28 ALL WIN -**

**If you have the Powerball, a further FIFTEEN games also win. THAT'S 25 OUT OF 30 GAMES!**

## **Okay - But What Other Systems Can I Play?**

**"Powerball Strategies"** is written especially for Pick-5 and Powerball games. It includes:

- **4-From-4 Section** - Features Systems Guaranteeing 4 Numbers together from any 4 Winning Numbers
  - LottoPower™ System 744 - 10 games
